# E-PoC Gateway 2.0

## Connecting E-PoC to existing radio systems

Part of Entel's E-PoC Push-to-Talk over Cellular (PoC / Wi-Fi) Solution, this all-in-one and easy-to-install low cost gateway enables you to extend the range of, or migrate from, existing radio systems.

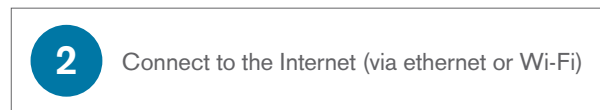

### Everything you need to know

- Can be used to easily extend the range and capabilities of existing analogue and DMR Tier II systems.
- Existing radio systems will benefit from E-PoC's extensive range of software and devices:

- Enables easy and low cost migration from existing radio systems to E-PoC.
- Scalable to meet the demands of more complex systems.
- Other infrastructure solutions available. Please contact your Entel Dealer for details.

### Installation in just three easy steps

In less than 5 minutes, networks are integrated and ready to use.

Approvals: [www.entel.co.uk/red](http://www.entel.co.uk/red)

## Key Benefits

- Multiple network support
- Enhance existing radio systems with E-PoC capabilities
- Over-the-air (OTA) programmable
- Scalable
- Easy to install
- Low cost
